OBJECTIVE Management level position in the computer field. I have been a successful programmer and computer consultant and would like to help others do the same while helping an organization grow towards its goals.

EXPERIENCE 8/2000 - Present US Court of Appeals Atlanta, GA

Senior Application Engineer

Develop a combination Windows & web application to track documents circulating through the judges' chambers using Microsoft Visual FoxPro v6-9, barcodes, scanner, XML, HTML, scripting, FoxWeb, West Wind Connection. Currently learning and using applications utilizing Unix, Informix and Javascript. I am continuing to work in FoxPro primarily, but also learning .NET. Also created a website that allows attorneys to upload briefs in PDF format. Responsible for checking briefs and communicating with attorneys regarding problems. Provide end-user support on all projects.

12/1999 - 6/2000 Self-Employed Atlanta, GA

Independent Consultant

Re-wrote contact/order processing program for in-house use at mailing list management firm.

7/1999 - 12/1999 Matrix Resources, Atlanta, GA  
Inc.

Contract Programmer

Worked on a program to electronically bill vendors for pre-paid long distance cards. Took data from SQL Server 7 database and created an EDI bill transmitted with AT&T mail.

12/1994 - 6/1999 Kreg Corporation Atlanta, GA

Lead Programmer

Started as programmer solely responsible for KREG's flagship product WinPLM - Product Line Management. This program, first written in FoxPro for Windows v2.6, then upgraded to Visual FoxPro v6, imports
